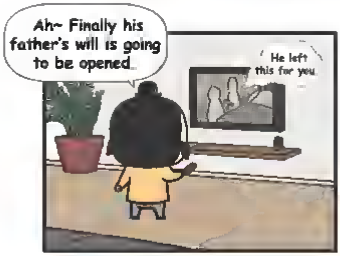
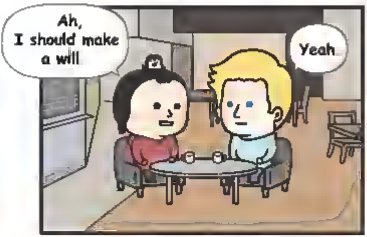
Will

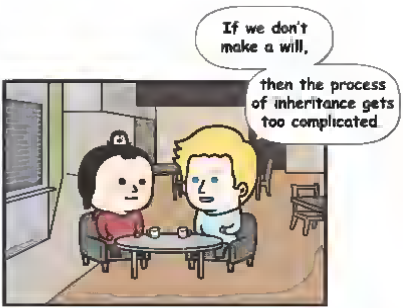
A will and testament is something
that is not very familiar to Koreans I think.



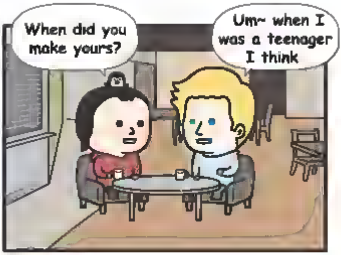
Because we see them more on TV than real life



However, making will is quite a familiar thing in England

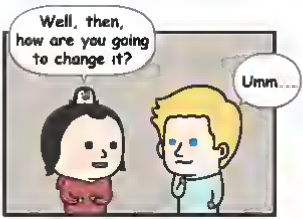


For this reason, many people make a will in advance.



When did you make yours?
Um~ when I was a teenager I think

I guess I give my assets to mom, dad and Carl.
Do you remember what it says?
I should fix mine too

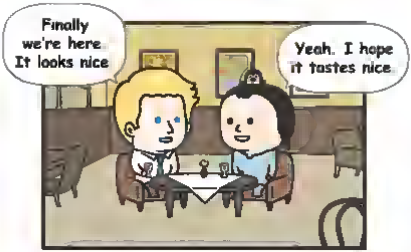


Well, then, how are you going to change it?
Umm....

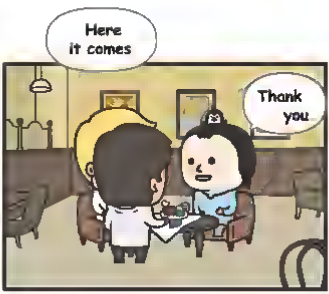
Of course I should give you everything. You're my wife!

I know that it would be the same in my will, but I felt nice.

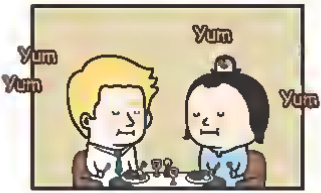
We went to eat out.



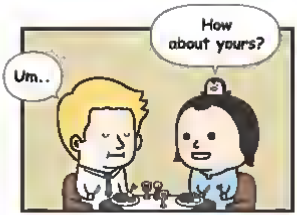
We were excited as the restaurant was a fancy place.



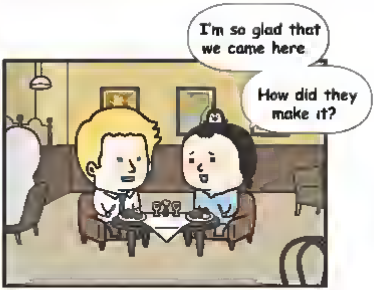
Soon, our food came out.



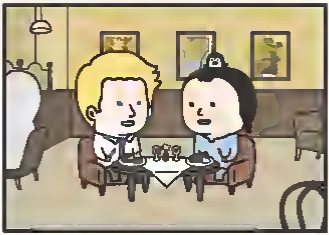
The taste of food was amazing.



We both thought the food was the best food from that year.



We couldn't stop praising the restaurant while we were having the food
And then, Mev told me



Mev

Calm down.

(Clap!)

Calm down.

(Clap!)

(Everybody~)
